Report N°09 – Monza 2024

During tyre checks performed on the grid of race 1 and in parc fermé after Race 1, it has been found that car #9 has used its Set 4 rear tyres at the front and its Set 4 front tyres at the rear of the car, which is in breach of Sporting Regulations Article 29.1 :

« [...] A set of tyres must comprise two front tyres and two rear tyres. Front and rear tyres are not interchangeable. »

Following a check on the car, tyres that were declared as Rear Tyres in Set 4 were used in the front, and tyres that were declared as Front Tyres in Set 4 were used at the back.
In this case, the team declared Set 4 as follow (see also document attached):
